American Vintage

The American Vintage series introduces an all-new lineup of original-era model year instruments that bring Fender history and heritage to authentic and exciting new life. With key features and pivotal design elements spanning the mid-1950s to the mid-1960s, new American Vintage series instruments delve deep into Fender's roots—expertly preserving an innovative U.S. guitar-making legacy and vividly demonstrating like never before that Fender not only knows where it's going, but also remembers where it came from.

Rather than just replacing the previous models with different ones, we've completely and comprehensively re-imagined the entire vintage-reissue concept—restoring original tooling dies, voicing new pickups, reformulating vintage colors and more—based on actual vintage Fenders we tracked down to make sure we had it right.
